25X1X

In late August the Mukden Automobile Factory of the Industrial Department of the Northeast Government was rushing the repair of damaged US trucks which were sent to Mukden by the Chinese Communists from the Korean front. The manager of this factory is TING Heng (丁恒). All automobile mechanics of privately-owned automobile repair shops in Mukden were compelled by Mukden city authorities to work for the Mukden Automobile Factory and assist in the repair of these trucks. The factory supplies all automotive parts but the workers must supply their own tools. Workers are paid from JMP 800,000 to JMP 1,500,000 for each truck repaired, depending on the amount of work required. From late July to mid-August 1,000 trucks were repaired and sent to Korea.
